From: Sinisa Ivkovic
Topic: 20 Message: 20

Hi all !!!

On 1st June you could hear 331BH/DX activation which was active on 27650 by some German operator. Probably it was FAKE activation. I am not 100% sure but in that moment I had no close distance propagation. I tried to speak with my friend 328SD101 Ljubo in Croatia but it was not posible. Ljubo and I and also some of Italians were trying to turn our antennas in oposite side and results were much better when we were pointing to north instead of south. In that moment I heard many stations from Germany on 555 so I concluded that was someone in Germany pretending he is calling from Bosnia. If anyone got any proofs about this activation would be nice to share with us on forums. In other case... save your money.
Best wishes 45FAT103 Sinisa

If you are a really IOTA-chaser, it?s already time for you to have a look on:

The Islands base online at www.islands.uznam.net.pl added a new feature: islands logs online.

This log is very simple, every user can look into his his own statistic and there is the possiblity to look at the overall statistics, aswell.

Using the log is pretty simple. Register for an account, login, search for the desired island and put in date and station and press the confirm button. Of course you can update or delete your contacts afterwards.

Running logs can be interesting (or useful) and after some input, we can easily see which islands were active on 11 meters so far and which could be interesting to activate. A long awaited tool now ready to use. Take the chance and help making the list complete ...

This campaign is about Human beings, Democracy, UNHCR, Refugees, The Iraqis, Islam, Kurds, Human rights, Respect, Money, Donations, Angelina Jolie, Pavarotti, Giorgio Armani, Donors, Peace, History, Campaigns and about you if you care about these words.

Hi there,

I am SAM, an Iraqi refugee living in Lebanon at the moment; I have spent the last 10 years of my life as a refugee registered with the UNHCR in Beirut. The last 4 years, I have spent as an activist for peace and human rights (especially refugees and asylum seekers) on the Internet; I'm also books author and ebooks publisher. I have launched many campaigns to improve our situation as refugees in Lebanon and hopefully bring more understanding to our problems worldwide. I helped make many changes and improvements at the UNHCR office in Beirut; I used the Internet as the field for my activities (you can read more about that in my free ebook 'MY CAMPAIGNS'). All my ebooks are free and could be download from my sites.

This is my newest campaign, it's about the illegal and humiliating actions of the UNHCR, who using photos of refugees as banners and human-buttons to collect money. This is an abuse of the dignity and humanity of the refugees and must stop immediately and a clear public apology present by The United Nations High Commissioner for Refugees. My friends, I am talking about the pictures you can see here:
http://unhcrlebanon.kogaryu.com/human-buttons.htm

Also you can read my new campaign 'Urgent, we need smile' here:
http://News.net4free.org/lebanon/email_me.htm

For more info about UNHCR and life of refugees you can read my free ebooks. I invite you as fellow humans and members of the world community to support my campaign by reading my article on my site and see the human-buttons. The campaign is to support and improve the UNHCR http://www.unhcr.org especially after the last scandals in the UN and UNHCR, just for example: http://www.mizzima.com/archives/news-in-2005/news-in-april/12-April05-22.htm

"We make demonstration and fast because the UNHCR office in Cairo did nothing for our problem..." http://news.bbc.co.uk/2/hi/africa/4440730.stm

Together we will build better world.

You could reach me fast via this form: http://unhcrlebanon.exactpages.com/email_me.htm
and if you like to know more about me, you can google for my name 'osam altaee'.

470. FW: DXRC now offer eQSL from DXRC activities

Yahoo group: sdgreece
Date: 2006-09-07 19:25:30 UTC
From: 14DX079 Merry
Topic: 470 Message: 470

----- Original Message -----
Subject: DXRC now offer eQSL from DXRC activities

Hi all,

On behalf of Delta-Xray Radio Club (DXRC) I am happy to announce that DXRC now offer you 2 new ways to receive your QSL (a QSO confirmation) from a DXRC activity.
But first: You can of course still send your personal QSL-card to DXRC-Bureau and receive a QSL back - just like you always have done. This iss of course not changed ...

DXRC offer this service from Tuesday 29/8/2006 for DX-Expedition 213DX/2.

NEW 1: eQSL
In case you want a super fast confirmation of the QSO we offer you to receive our eQSL. Send an Email to the eQSL-manager and receive an eQSL via email.
The eQSL is an email confirming the QSO and a attached photo with info about the activity.
See example from 213DX/2 infopage:
http://delta-xray.net/redir.php?URL=213dx_2.html

The eQSL is valid for awards from DXRC award program.

By requesting the eQSL you save approx. 2 Euro (own QSL-card, postage - and the usual enclosed 1 Euro for postage for manager: "contribution")

You can request your eQSL from 213DX/2 via DXRC internetsite:
Go to www.Delta-Xray.net - click "activities" and click in the row "request eQSL".

As the eQSL for some activity does not show specific time and date of your QSO, the eQSL might not be valid for awards from all clubs worldwide - however, I recommend managers worldwide to check validity of the DXRC eQSL via DXRC internetsite:
www.Delta-Xray.net - click "activities" and select the activity in question.

NEW 2: Request QSL via internet - and save money
In case you want to save money and time, you can request your traditional QSL-card by sending 1 Euro via Paypal or E-gold to DXRC Bureau. This 1 Euro covers postage from DXRC Bureau in Denmark for sending the QSL-card to you.
In this case you save money for your own QSL-card, the postage for sending the card to the manager - and time writting and sending the card (in total of approx. 1 Euro).

Do the following:
1a. Send via Paypal 1 Euro to the email address admin@...
1b. Send via E-gold 1 Euro/us$ via this link: http://3533910.e-gold.com/
2. Send a email to DXRC Bureau (dxrc-bureau@...) with this info:

I have transferred 1 Euro to DXRC Bureau via <<Paypal>> or <<E-gold>> .
Please send to me the QSL
- from activity : <DX-activity callsign> (example: 213DX/2)
- I am: <your callsign> (example: 11AE321)

At DXRC internetsite you can see latest news about the QSL-status:
Go to www.Delta-Xray.net - click "activities" and see the status.

Feel free to translate this message to your own language and send it to other mailinglists.

Thanks.

Best wishes

Mette
President DXRC

PS:
We have just ended an activation with callsign 213DX/2. Some has asked me why the callsign is 213DX/2 (and not 213DX/0 or other callsigns).
The answer is:
DXRC uses this system for issuing callsigns:
- xxxDX/0 is used *only* when the DXCC is activated for the fist time ever at 11-meter. As there has been many activations through the years from 213, we will not devaluate and abuse the /0-callsign
- xxxDX/1 is used for Delta-Xray's FIRST activation from a DXCC that has been activated before at 11-meter.
- xxxDX/2 is used for Delta-Xray's SECOND activation from a DXCC that has been activated before at 11-meter.
- xxxDX/3 is used for Delta-Xray's THIRD activation from a DXCC that has been activated before at 11-meter.
- xxxDX/9 is used for Delta-Xray's 9th activation from a DXCC that has been activated before at 11-meter.
After 9 DXRC activations we will use portable callsigns (example: 213/47DX088) as there is no reason to make an activation from a DXCC that has been so heavily activated.

Bonjour.
Les LOG SG sont en ligne sur le site www.sierra-golf.fr (Menu "Infos" à gauche, lien "Logs")
Ils sont MAJ à la date du 14/10/06 et devrais être MAJ 1 à 2 fois par semaine en fonction des QSLs RX et retournées aux Expéditeurs... (Puisque dans les LOG nous indiquons si la QSL à été RX et TX en retour). Si vous remarqué une erreur vous concernant, ou si vous ne vous retrouvez pas, envoyez moi un email (14SG011@...) avec votre Call, Prénom, le progressif RX et si possible le jour et l'heure du contact. Je regarderai si vous ne faites pas partis des personne où les Opérateurs ont eu du mal à entendre votre call à 100% (manque l'unité, mal entendu à cause de la surmodulation,...) Et ainsi je pourrais corriger les erreurs.
BON DX.

Hello.
The SG's LOG are on line on the www.sierra-golf.fr site (Menu ☐Infos☐ on the left, link ☐Logs☐)
They are MAJ at the date of the 14/10/06 and should be MAJ 1 to 2 times per week according to QSLs RX and turned over to the operator (Since in the LOG we indicate if the QSL to be RX and TX in return). If you noticed an error concerning you, or if you do not find yourselves, send to me an email (14SG011@...) with your Call, Operator, the progressive RX and if possible the day and the hour of the contact. I will look at if you do not be a person where the Operators had evil to understand your call at 100% (unit number, not heard because QSB,) And thus I could correct the errors.
GOOD DX.

A new 11m DX service has started up. Thanks to 74THD001, Michael, who is the Site Admin behind this project. Set up along the lines of the amateur QRZ, in the future, you will be able to look up a callsign & find the details of the operator.

So please, let's support Michael and sign up to get your QRZ into the growing 11m database.

Unfortunately, 43 Div can't use the real high freqs, because down here in OZ, we have a 27MHz Marine Band Allocation. All these are in the AM mode, with 4w output. Although many seagoing operators now only monitor VHF Distress Channels. If purchasing a marine transceiver, a VHF marine transceiver is now strongly recommended. But beware 43 div freebanders, the 27MHz Marine Band is GOVERMENT ALLOCATED. There are still alot of small private pleasure craft that use 27 MHz Marine, because it's a lot cheaper than the VHF.

Radio South-North...Radio is Friendship and Friendship is Peace! ! !

Did you ever hear about something like this? No?

Okay, then let me have a little of your time and attention to tell
you more what's it all bout.

We are a CB-Radio Group<CitizenBand11m on 26/27MhzBand> to make
Contacts and Friendships across the whole entire Wolrd!!!! I
know all this might sound really big to you right now...and agree
with you in this point, it is indeed!

Our great DX-Group was found by 21RSN-001 Op.: Janne from Sweden back
in the Year of 2003. Our Lifetime Membership is freely and
voluntarily to purchase. And here comes the major fun part of it:

It's a " FREE MEMEBERSHIP-with NO COST" for everybody and as long as
you will be a part of our huge and giant Radio Family ! ! !

What we really try to do in this matter is a way much more than just
talking to people around the Globe and exchanging stupid QSL-Cards
for any Dx-Diplomas or something like thais. It's like a fun raising
being together, to share the same hobby we got<CB-Radio> and keep
this Spirit alife to something we are all believe in and what makes
us feel good. Like I already said, Radio is Friendship and
Friendship is Peace! Feel free to join us and help our Group to grow
bigger and bigger...

Thanks for taking a few moments of your precious time to learn more
about RSN-Dx Group!!!

73's,51's & god bless you and your Famlies...

I'd like to inform in the name of Chris (330 SD 137) that he's not
active on band 11m to the end of this year.
If you hear anybody making connection under his name it means he is a cheat.
Please do not make any connection with him.
Chris currently doesn't have a radio for 11 m band.

Please spread this message among other forums 11 m.

During the last weekend appeared another cheat under the 161 sd 012 Mario name.
This station was broadcasting from Poland from the city of Bydgoszcz or nearby.
As you know Mariusz lives in Warsaw.

Please spread this information in the name of Chris and Mario and HQ SDPL

Subject: Fwd: SKOPIA:THEY HAVE A NAME!!!!!!!!!!

THEY HAVE A NAME!!!!!!!!!!

FOR THOSE THAT SEEK A NAME FOR " MACEDONIA ".

THE NAME OF THE AREA BEFORE WORLD WAR II WAS VARDARSKA.

THE NAME MACEDONIA WAS GIVEN TO THEM BY THEIR LEADER JOSEF BROSTEIN (OR THE LEADER KNOWN AS TITO).

ATTACHED YOU WILL FIND THEIR MAP BEFORE 1940.

A FEW NOTES FOR THOSE WHO DO NOT KNOW.

1. ALEXANDER THE GREAT AND HIS TEACHER ARISTOTLE SPOKE HELLENIC. NOT ANY SLAVIC LANGUAGE.
2. THE MACEDONIAN CAPITAL WAS PELLA. NOT SKOPJE.
3. ALEXANDER'S SISTER WAS CALLED THESSALONIKI. NOT SOLUN LIKE THE SLAV(E)S CALL IT.
4. VOUKEFALAS WAS ALEXANDER'S HORSE. NOT A ZASTAVA.

SO, VARDARSKA IT IS AND STOP PLAYING WITH THE REAL MACEDONIANS.

WE'VE HAD ENOUGH WITH THIS JOKE.

SPREAD THIS MESSAGE ALL OVER THE WORLD.

Hi all,

as organisator, official manager and member of the event, I can finally give you NOW following statement:

No worry, SOON we?ll be back POWERFULL again with ALL different stations from AUSTRIA !

I can promise you, that ESPECIALLY during the "EUROPEAN_FOOTBALL_CHAMPIONSHIP", the chances will be very good to log our stations, if you are still hunting for it.

-> So listen out for us on the band / also sporadic activities during the week & weekends by the teams !!!! <-

Also I can tell you, 15SD/EM2008/xx by 15SD011, Mr. Steve, will be more active very soon !

Last weeks had been very bad here on several reasons, so we had to stop IMMEDIATELY the activities from AUSTRIA and some days / weeks before, the similar happened there SWITZERLAND.

BUT, as mentioned lines before, STAY TUNED for update infos on various mailinglists and see very soon spots on cluster.dk, when we are active and be logged !

Any other questions ? Just drop me an E_Mail !

Be so kind and pass this infos on various mailinglists, too.

Hi guys,

any experience on yours at this RM KLV-350 amplifier ? Just got 1 via ebay like a new 1 for only € 80,-- included delivery costs here. The father of the guy died recently and so the guy is selling all the stuff, just for information...

As I did have an RM KLV-400 years ago, I think, it´s a similar amplifier. On my KLV-400 I got 350 w output, when input was around 20 w.

Possible to get this result here again with the RM KLV-350 ?

For any reply big thanks in advance.

Hi all,

what do you think about following:

Input around 20w -> Output around 250w !

Less, enough or should be more output possible ? Personally I think, it should be ok, cause the "bigger" brother, RM KLV-400 was giving around 270w in a friend?s shack.

Any replies ONLY in private way, please. Thnx in advance.

G'day DXers,

Please check out all the information about the 2009 Oceania Contest commencing on January 2nd on http://11mdxactivitiesoz.com/node/1370

This year the prizes are even better with bhi ltd UK adding to an already impressive list of sponsors for the most exciting event on 11m.

Please keep in mind also that you do not require contacts with Oceania transmitting stations to participate although they do of course help as multipliers.

Fantastic Oceania Contest QSL cards are also available at cost price only.

If you would like a copy of the rules and contest logo, please email me in person.

Last year's winners:

1. 172AT101 Philippe
2. 35AT160 Peter
3. 43SE144 Pete

1531. Introducing Eleven Meters United (E.M.U.)

Yahoo group: sdgreece
Date: 2010-06-09 09:24:01 UTC
From: Darren Johnston
Topic: 1531 Message: 1531

Dear Hobby Friends,

I am writing to introduce to you a new independent organisation titled Eleven Meters United (E.M.U). In short, it is run by the clubs – for the clubs.

Like the old WWRO, the primary aim of E.M.U. is to implement projects which are deemed to be beneficial for the above radio communities. There are also other responsibilities such as collecting and maintaining what we call accepted 11m protocols to inform new operators. That is, good ways of operating on 11m – many of which have been outlined by the famous GRI Alfa Tango.

Without being disrespectful to the old WWRO and the current group of guys who did an excellent job with the only remaining WWRO project 'the Islands Festival', we feel that the EMU model is a more independent and better structured one and can better service the needs of the clubs and individual radio operators in our large community.
At the moment a small number of radio clubs (Big, small, old and new) have agreed to be affiliates of the new agency with a number of others currently discussing the invitation amongst their HQ team.

For the HQ men of non-affiliated clubs, if by chance that your invitation to become an affiliate has not been received by me then I encourage you to contact me in private. The support of all clubs regardless of their size and membership numbers is vital to the success of this new agency. All affiliated clubs are asked to nominate 1-2 representatives for the private EMU mailing list. These representatives automatically make up the new EMU Committee which oversees the naming of Projects and Project Teams. All clubs have an equal say.

Individuals also can also show their support as Associate Members of the E.M.U., regardless of whether or not their club is an affiliated. See the info at http://www.emudx.com/?page_id=117 This is also very important to the E.M.U.

Please visit the new E.M.U. website for information on all of the projects, including how the E.M.U. model will work. I'm sure you will see it has great merit.

Thank you for your support.

73 de Darren, 43DA001
Coordinator, Eleven Meters United (E.M.U.)

Hello DXers,

Nominations are being accepted for the new EMU field day management team.
Please note that there are 3 positions available.

If you are a member of one of the affiliated clubs and feel that you have the time and skills to be involved in the organisation of this field event then please contact your EMU Club Representative or send me an email in private thanks.

If you are a member of a non-affiliated club then you may also nominate yourself for a position on the field day team by becoming an Associate Member. This is easy and costs nothing.

I will arrive in RHODOS Island at UTC: 03:00 (in the midnight) and normally at UTC: 12:00 I will go to the Room of my Hotel.
My QTH will be in the village of KALLITHEA , on the north-east coast part of RHODOS Island.
My Working conditions will be: Transceiver: YAESU FT-857D , Max power: 150 Watt & Vertical Antenna by ALLAN λ/2.
My Monitor Frequency will be: 27,640 USB or 27,650 USB.

The most important thing for me is that to get permission from the Management of my Hotel , just to install my Antenna in a safe place.
In case I will get this permission , then I will install my Antenna immediatelly and hopefully I will be active on the radio tommorow evening.
I promise that I will do my best just to activate this interesting I.O.T.A activation.

G'day All,

Best of luck for these exciting events, Tom. Ever since Delta Radio's Castles and Fortresses Weekend in the early 2000's I've been very interested in the COTA concept and its historical values. Probably a little too early for OC to be working you but I pray for the best possible conditions for you mate.

Hi Mr Aldo & all ,

I am writing you this message after the complaints of 1AT069 Mr Enio against to me.

I only asked via E-mail what happens with the situation of 111AT101 Mr Hail , why my good friend 18SD005 Mr Theo has not received any answer by 1AT156 Mr Mauro until now (1 year without any answer by 1AT156 Mr Mauro)
Mr Theo had posted 2 times contribution to him.That was my E-mail to the AT Mailing list.
This is not a reason for Mr Enio complaining me (why I sent that E-mail to the AT Mailing list)

It is not democratical 1AT069 Mr Enio stopping me sending E-mail's to the AT Mailing list about asking something which is relative with the AT Group & it's QSL Managers.
Who is responsible in this Group and which is the correct place of asking something which is relative with this Group?
Do you know how many complaints are in other Mailing lists about the delay of answers by 1AT156 Mr Mauro?

Anyway , I am a gentleman person and democratical too.
I do not allow someone (like 1AT069 Enio) to be so strict with me...
I am not a young child.

Tonight I decide to leave the ALFA TANGO Group....
The reason that I leave the ALFA TANGO Group is due to the bad behavior of 1AT069 Mr Enio and it's strict rules.
After 10 years I thought that the things have been changed but unfortunatelly this Group is stil the same!
You are not a democratical Group...Sorry!

The reason that I send this message in public Mailing lists is that because I want anyone to know the real reasons of leaving this Group.It is not secret for me!I don't like the secrets!

Thanks for your collaboration guys ,

From: Darren Johnston
Topic: 1632 Message: 1632

Dear All,

Part 1 of the EMU Islands Fiesta will be held on January 8-9, 2011.

There are 4 categories:

1. Island Hunter – DXer who hunts island contacts (IOTA & IWI) from the home shack or from a portable location

2. Home IOTA Operator – DXer who already lives on an island and uses a special IOTA callsign for the weekend

3. IOTA DXpedition Operator – Dxer or team which travels to an island/s for an IOTA activity

4. IWI DXpedition Operator – Dxer or team which travels to an inland water island for an IWI activity

One of the objectives is to have as many IOTA references and islands on the band as possible over the weekend.

Anyone can participate – members of non-affiliated clubs, members of affiliated clubs, etc. Many great prizes are up for grabs, including IOTA Directories, log books, EMU merchandise, trophies, antennas and more!

For more information, including the dates of Part 2 of the Islands Fiesta coming up later in the year, please see the EMU website at http://www.emudx.com/projects/eif/ .

To participate in one of the above categories, please me in private at darren@....

Thank you for supporting this independent event ;-)

1663. Islands DX New - Fiesta

Yahoo group: sdgreece
Date: 2011-05-31 09:25:31 UTC
From: Darren Johnston
Topic: 1663 Message: 1663

G'day DXers,

Part 2 of the EMU Islands Fiesta (EIF) on June 11-12 is less than 2 weeks away and there are more participating IOTA and IWI DXpeditioners, more islands operators, more clubs and more teams announced every day. The latest being an exciting IWI Tour in Australia, as well as a major IOTA DXpedition 30CRC/EU-143 from Sancti Petri Island. See the article at http://www.emudx.com/30crceu-143/ .

To be involved in the independent Fiesta on June 11-12 is easy - simply send your details to the EMU team and your activity, together with a nice article promoting your island DXstination, your members and your club will be feature on the EMU website. For all the islands articles please see http://www.emudx.com/category/islands-fiesta/ .

There are 3 categories to chose from: 1. IOTA DXpeditioner 2. IWI DXpeditioner 3. Home Based Island Operator and great prizes exist for each! There are also great prizes for successful Island Hunters which include RSGB IOTA Directories, trophies and much more!

Participating stations can choose not to print their own QSL. All islands activities will feature on a spectacular triple QSL card which will be available from the EIF Project Managers. This QSL will feature images of all participating island stations and is yet another great EMU Islands Fiesta (EIF) innovation!

Thank you for supporting the EMU and its great projects...the EMU Field Day (EFD), the EMU SOTA Tour (EST) and of course...the EMU Islands Fiesta (EIF).

Dear DXers,

The Eleven Meters United (EMU) website has been updated with a number of logs for the 2011 EMU Islands Fiesta (EIF). Please note that the deadline for logs from Island Hunters is July 23 and placegetters and prize winners will be announced after this date.

The special EIF QSL has also been designed and can be seen at http://www.emudx.com/2011-islands-fiesta-qsl/ . This double QSL features images from all participating stations in this year's independent islands event.

The 2011 EMU Field Day (EFD) is planned for September 3-4 and already a number of teams have registered to participate. On behalf of the Project Team 14HF001 Tomas and 3DA012 Roger, please check out the EFD section on the EMU website for all the details! Like in 2010, this promises to be one of the most enjoyable weekends of the year!

Please note that EMU Clubs are currently working on a number of other projects which will be announced soon!

Thanks for supporting the EMU and the EMU projects ;-)
